Jakarta, Indonesia

Best choice

As an Information Systems graduate from Bina Sarana Informatika University (2026) with a GPA of 3.94/4.00, I enjoy combining technology, creativity, and data to create meaningful solutions. With experience in Graphic Design, Web Development, and data management at BPS South Jakarta since 2022, I believe that user-centered digital solutions are the key to the future. I am eager to keep learning, exploring new ideas, and turning them into impactful work.

Work experience

Oct 2022 - Present

Statistics Indonesia (BPS) Partner

Badan Pusat Statistik (Kota Jakarta Selatan)

Responsible for managing comprehensive statistical operations, from supervising field data collection and enumerator performance to executing data entry, validation, and processing for national censuses.

2023, 2024, 2025 (Project-Based)

Data Collection Specialist / Enumerator

Dinas PPAPP Project-Based

Participated in the SPHAD (Survei Pengalaman Hidup Anak dan Dewasa) data collection project for three consecutive periods. Responsible for conducting direct field interviews, gathering accurate demographic data, and ensuring data integrity to support regional policy-making.

Jan 2022 - Aug 2022

Graphic Design & Web Dev

Colibri Allied Care Jakarta, Indonesia

Responsible for the end-to-end design and development of the organization's digital assets. Duties include creating engaging visual graphics for marketing initiatives and developing, maintaining, and optimizing a responsive company website to enhance user experience and strengthen online brand presence.

Jul 2021 - Dec 2021

Print Production & Finishing

Revo Print Shop Jakarta, Indonesia

Managed end-to-end print production workflows, from receiving client orders to the final delivery. Handled technical file formatting, operated various printing equipment, and performed meticulous post-print finishing to ensure all products met client specifications and company standards.

Dec 2020 - Mar 2021

Graphic Design

Thick Toast Probation Period

During my probation period as a Designer at Thick Toast from December 2020 to March 2021, I supported the company's marketing activities and event documentation by creating engaging visual designs for social media platforms. My responsibilities included developing creative visual content, designing promotional materials, and documenting events to support the company's marketing and branding needs.
