Jakarta, Indonesia

As a designer, I highly value the ability to bring a client's vision to life, which is very rewarding. There is a huge amount of satisfaction I gain from seeing a piece of work from idea to design, especially when it appears in the user hands. I believe the user-centred solutions are the most valuable future digital resources.

Work experience

Oct 2022 - Present
Statistics Indonesia (BPS) Partner
Badan Pusat Statistik (Kota Jakarta Selatan)

Responsible for managing comprehensive statistical operations, from supervising field data collection and enumerator performance to executing data entry, validation, and processing for national censuses.
